DEAR TAHOE FUND FRIENDS,

THE 2015/16 ANNUAL REPORT summarizing the Fiscal Year that ended on March 31, 2016 is a celebratory one. This Annual Report commemorates the first five years of operations of the Tahoe Fund and the work we have been able to accomplish with the generous support of our many donors. This brief look back applauds the projects that have been completed, while serving as a reminder of the work that still needs to be done to help restore and enhance Lake Tahoe.

Since 2010, the generous donors to the Tahoe Fund have raised over \$4.5 million and helped complete 17 environmental improvement projects. These projects have removed harmful aquatic invasive species, restored critical watersheds, improved recreation amenities around the Basin and inspired environmental stewardship projects that will create future caretakers of this beautiful mountain treasure.

We are also commemorating the growth of our programs that support the sustainable resources of the Tahoe Fund. The Green Bucks dollar donation program now has over 25 participating businesses

around the Lake and has helped raise over \$425,000 for our efforts. The Stewardship Circle campaign continues to grow our support base with multi-year commitments from individuals and organizations. We also commend the group of donors that preceded all others, the Founders Circle members who charitably donated over \$1 million to lay the foundation of the Tahoe Fund.

Thank you to all of the individuals, businesses and foundations who have invested in the efforts of the Tahoe Fund to restore the Lake’s famed clarity, improve outdoor recreation, and inspire greater stewardship. There is still much work to be done, and with your long-term support we will create a legacy for generations to come.

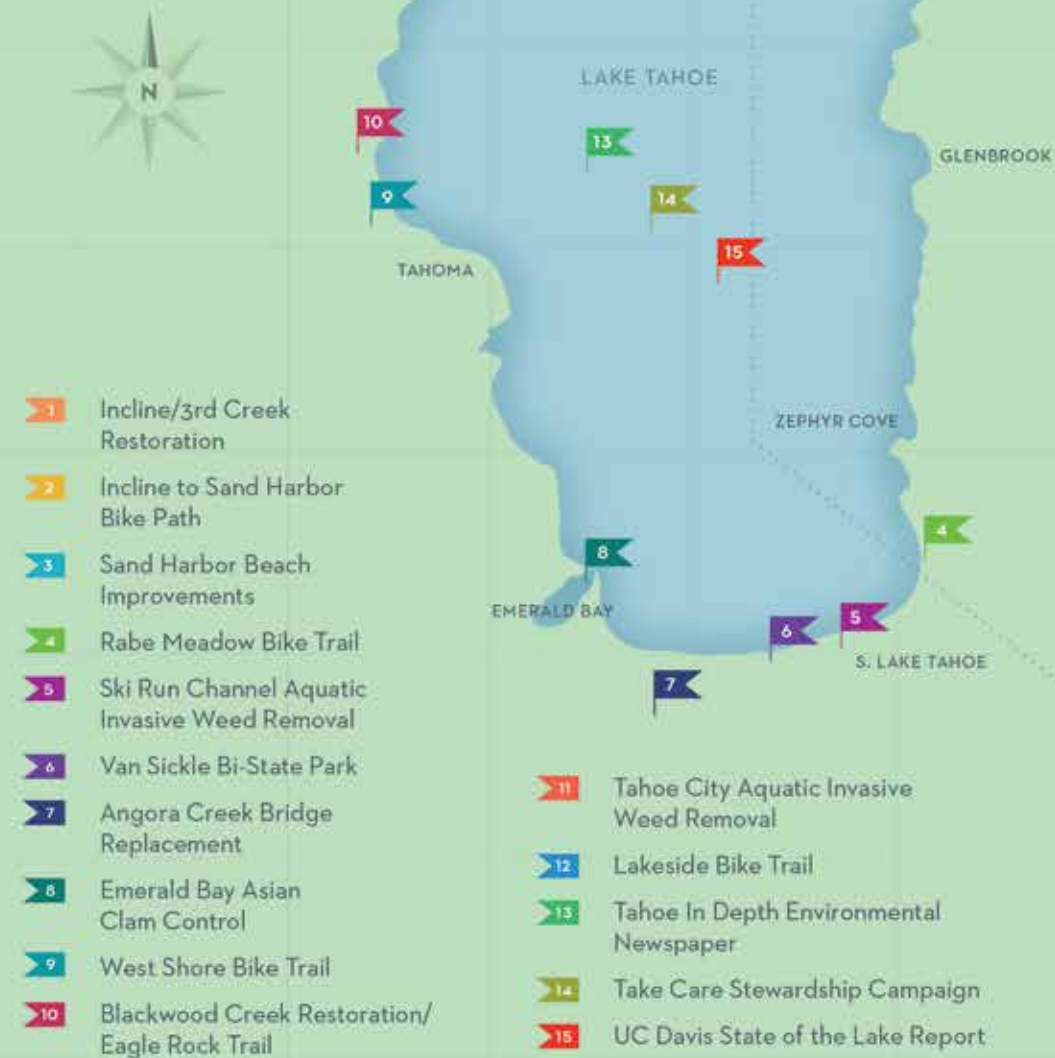

Sincerely,

Tim Cashman, Chair

Amy Berry, CEO

MAP

Tahoe Fund Project Portfolio 2010-2015

TAHOE FUND PROJECT PORTFOLIO

THE TAHOE FUND PROJECT PORTFOLIO gives a snapshot of the wonderful work that we are able to accomplish by joining public and private efforts. Since 2010 the Tahoe Fund has successfully completed over 15 environmental improvement projects

in the Basin and is poised to complete many more with the help of the private community. We look forward to expanding our portfolio of projects to restore and enhance the stunning environment of Lake Tahoe.

Aquatic Invasive Species Removal

- Emerald Bay Asian Clam Removal
- Ski Run Channel AIS Weed Control Project
- Tahoe City AIS Weed Control Project
- Watercraft Inspection Station Sponsorship

- Rabe Meadow Bike Path
- Sand Harbor Beach Improvements
- Van Sickle Bi-State Park
- West Shore Bike Trail

Watershed Restoration

- Angora Creek Bridge Replacement
- Blackwood Creek/Eagle Rock Trail Restoration
- Incline/3rd Creek Restoration

Environmental Stewardship

- Environmental Education Fund
- Tahoe In-Depth
- Take Care Campaign
- UC Davis State of the Lake Report

Recreation Improvements

- Incline to Sand Harbor Bike Path
- Lakeside Bike Trail

AQUATIC INVASIVE SPECIES REMOVAL

Emerald Bay Asian Clam Removal

2012
Granted: \$38,750

Partners: California State Parks, UC Davis, Lahontan Water Quality Control Board, Tahoe Resource Conservation District, Tahoe Regional Planning Agency

WITHIN EMERALD BAY, a small, fast-multiplying invader known as the Asian clam threatens to overwhelm the nearshore ecosystem of this world-famous inlet. In 2012, a team of scientists and divers covered approximately five acres of the lake bottom with black rubber matting to smother the clams by cutting off their oxygen supply. It was the largest Asian clam control project in the lake's history and the first time the technique, developed by UC Davis researchers,

has ever been tried on this scale. The Tahoe Fund donors provided funding to treat the remaining half-acre area of the population that was left untreated. The rubber mats were removed in late 2014 and initial testing has estimated at least a 90% mortality rate.

Ski Run Channel AIS Weed Control Project

2014
Granted: \$13,500

Partners: Tahoe Resource Conservation District, California Tahoe Conservancy

THE SKI RUN CHANNEL in South Lake Tahoe is infested with Eurasian watermilfoil and curly-leaf pondweed, aquatic invasive plants that threaten the clarity of the Lake. The high volume of traffic through the channel, notably commercial daily cruises to Emerald Bay, spread the invasive plants to other pristine areas of the Lake. This project

allowed the continued treatment and removal of these hazardous weeds to restore the near shore clarity around the Lake.

Tahoe City AIS Weed Control Project

2014
Granted: \$37,950

Partners: Tahoe Resource Conservation District, California Department of Parks and Recreation, Tahoe Regional Planning Agency, University of Nevada

AQUATIC INVASIVE SPECIES are a serious threat to the crystal clear waters of Lake Tahoe. Aquatic invaders such as Eurasian watermilfoil, Asian clam and brown bullhead catfish have already established in Lake Tahoe. These non-native species change the natural make-up of the waters and threaten to significantly reduce the recreational use of the Lake and surrounding rivers. This project implemented control and removal efforts for Eurasian watermilfoil at the mouth of the Tahoe City Dam and down the Truckee

River. Locally trained crews hand picked the weeds from the shallow shores using proven best practices. In deeper areas, divers were sent to the bottom of the Lake to smother the plants with thick rubber mats. Both practices have been shown to have great success in restoring the near shore environment back to its original pristine manner.

Watercraft Inspection Station Sponsorship

2014
Granted: \$10,000
Partners: AIS Working Group

THE LAKE TAHOE REGION Aquatic Invasive Species Program (AIS Program) is implemented by over 40 federal, state, and local partners that are committed to preventing the introduction or spread of aquatic invasive species (AIS) in Lake Tahoe. Recreational activities involving watercraft (i.e. motorized vessels, personal watercraft, kayaks, canoes, inflatables) and/or fishing are the most likely sources of the introduction of AIS into Lake Tahoe. The Watercraft Inspection Program is the

primary prevention element of the AIS Program, aiming to stop the spread of new aquatic invasive species by screening all watercraft before launching into Lake Tahoe.

WATERSHED RESTORATION

Angora Creek Bridge Replacement

2013

Granted: \$15,000

Partner: California Department of Parks and Recreation (CA State Parks)

ANGORA CREEK, a tributary of the Upper Truckee River, flows through the high meadows and conifer forests of Washoe Meadows State Park near Meyers, CA. The creek has been the site of several recent projects to restore damage caused by historic grazing practices, road and sewer construction, and the 2007 Angora fire. A new meandering channel now supports thriving fish and plant communities. To complete the restoration efforts, California State Parks sought out funding for a bridge that would

replace temporary crossings that hindered park users and caused severe stream bank erosion, which introduced fine sediments into Lake Tahoe. The new bridge now protects the river and lake and serves as a hub for hikers, bikers, birders, and other visitors to this jewel of Tahoe's south shore.

Blackwood Creek/Eagle Rock Trail Restoration

2012

Granted: \$30,100

Partner: California Tahoe Conservancy

THE LOWER BLACKWOOD CREEK and Eagle Rock Restoration Project restored one of Tahoe's most impaired watersheds and created a new trail on the Lake's beautiful west shore, just five miles south of Tahoe City. The project was the final piece of a comprehensive inter-agency effort to restore the watershed. Blackwood Creek contributed over 1,900 tons of fine sediment per year to Lake Tahoe, more per area unit than any other watershed in the Tahoe Basin. Through a collaborative effort led by the California Tahoe Conservancy, the creek and

its riparian areas were restored, fish and wildlife habitat improved, and an interpretive kiosk installed. A new trail was also built to the summit of Eagle Rock, providing a 20-minute walk to stunning views of Lake Tahoe. Camping, picnic tables, restrooms, and beach access are just minutes away at Kaspian Campground and Day Use Area to the north, and Sugar Pine Point State Park to the south.

Incline/3rd Creek Restoration

2012

Granted: \$10,550

Partners: IVGID, US Army Corps of Engineers, Nevada Division of State Lands

THE THIRD AND INCLINE CREEK watershed was Nevada's highest priority restoration project in Lake Tahoe. It contributed more fine sediment that damaged the clarity of Lake Tahoe than any other watershed in Nevada. The first two phases of this collaborative inter-agency project were completed in 2009 and 2010 by the Incline Village General Improvement District (IVGID), the US Army Corps of Engineers, and the Nevada Division of State Lands. Portions of Third Creek were restored, culverts were replaced, and new bridges were built. The final phase included stream restoration

improvements on Third Creek from Lakeshore Drive to Lake Tahoe, and on Third and Incline Creeks from Incline Way to State Route 28. To allow for safe, stabilized foot traffic across both creeks, pedestrian bridges and stairs were included in the project design. The project has significantly improved water quality, fish passage, and provided a recreational amenity in the heart of Incline Village.

RECREATION IMPROVEMENTS

Incline to Sand Harbor Bike Path

2014–2016

Funds raised: \$1,000,000

Partners: Tahoe Transportation District, Nevada Division of State Parks, Tahoe Regional Planning Agency, Nevada Division of State Lands, US Forest Service, Incline Village General Improvement District, Washoe County, Nevada Department of Transportation, Federal Highway Administration

THE INCLINE TO SAND HARBOR BIKE PATH will be a spectacular three-mile paved path that will provide a new opportunity for the community to experience the natural beauty of the eastern shore of Tahoe. An exceptional recreational amenity with added environmental benefits, the path will also significantly improve the safety of those traveling down the Highway 28 corridor. With a 10-foot wide path, it will meet the American Disability Act standards to ensure it is accessible to everyone to ride, walk or stroll.

The new path will begin at the intersection of Lakeshore Drive and Highway 28, expanding the current Lakeshore bike path for three more miles down to the Sand Harbor State Park. Along the way it will provide access to Hidden Beach, Memorial Point and various other scenic vistas. It is a major component of the Lake Tahoe Bikeway that will one day go all the way around the Lake.

Led by the Tahoe Transportation District, the project team identified more than \$12 million dollars in public funding from various federal, state and Washoe County sources for construction. Through the generosity of our donors, the

Tahoe Fund has met the goal of \$750,000 to act as a match to access and leverage these public funds. The match triggered a cascade of public funding to finalize engineering plans and begin construction. Led by the Nevada Department of Transportation, construction on the new path and Rt. 28 safety improvements began in August of 2016. The final project is scheduled to be completed in 2018.

Lakeside Bike Trail

2011
Granted: \$20,000
Partner: Tahoe City Public Utility District

THIS PROJECT provided a critical "missing link" in the Lake Tahoe Bikeway through the heart of Tahoe City. It provides a walkable, bikeable greenway from public properties at either end of Tahoe City through the commercial core area. The project included the construction of Class 1 trail that connected the existing 19-mile network of trails on the North Shore, West Shore, and Truckee River; public vistas, interpretive signage, benches, and ADA accessibility to State recreational facilities.

Rabe Meadow Bike Path

2013
Granted: \$14,500
Partners: Carson City, Douglas County, Incline Village General Improvement District, Nevada Division of State Parks, Nevada Division of State Lands, Tahoe Regional Planning Agency, Tahoe Transportation District, USDA Forest Service, Washoe County, Nevada Department of Transportation, Lake Tahoe License Plates, Federal Highway Administration and the Washoe Tribe

THE RABE MEADOW BIKE PATH is a key segment of the Lake Tahoe Bikeway, a proposed new bike and pedestrian route around Lake Tahoe. The Bikeway will link communities around the lake, improve air quality, and provide a breathtaking recreational amenity for Tahoe residents and

visitors. The 3-mile Rabe Meadow segment extends from the Nevada/California border in Stateline, Nevada to Round Hill Pines Resort. This segment now provides a direct connection from the south shore's major tourist and lodging corridor to several residential, shopping, school, and beach areas. The bike path also includes environmentally sensitive design features, including boardwalks over wetland areas, and connections to major transit hubs.

Sand Harbor Beach Improvements

2013
Granted: \$35,000
Partners: Nevada Division of State Parks Recreation Trails Program, Nevada Division of State Lands, Nevada Tahoe Resource Team/Nevada State Parks

SITUATED WITHIN Lake Tahoe Nevada State Park, Sand Harbor is perennially the most popular summer recreation destination amongst all of Nevada's State Parks. Each year, nearly one million visitors enjoy Sand Harbor and its spectacular surroundings. Some use the Park as a launch spot for a day of boating or kayaking, while others choose to enjoy a family day at the beach or an evening of entertainment at the Lake Tahoe Shakespeare festival. The unique beauty of Sand Harbor—and its stunning views of the Lake—make it one of the most photographed locations at Tahoe. Protecting

the fragile beach environment, while providing a high quality recreational experience, is a priority and challenge for Nevada State Parks. The Sand Harbor Beach Improvements Project is designed to do both. The project replaced antiquated infrastructure and created three new access points that connect the parking area to the beach and reduce erosion along the sand bluffs. Newly designed overlooks provide ADA access to those with limited mobility to enjoy views of Lake Tahoe, and a new ADA accessible path allows easy access to the shores of Tahoe.

Van Sickle Bi-State Park

2011

Granted: \$25,000

Partners: Nevada Division of State Lands,
California Tahoe Conservancy

OPENED IN THE SUMMER OF 2011, Van Sickle Bi-State Park is one of the few bi-state parks in the United States that provides access to both sides of a state line. The park's unique location, close to the concentration of tourist and residential accommodations near Heavenly Village and the Stateline Casino Core, provides the opportunity for people to access Tahoe's outdoor environment on foot from their lodging. The Daggett Summit Spur trail, also completed in 2011, provides an integral connection from Van Sickle Bi-State Park to the famed Tahoe

Rim Trail, designated by National Geographic Adventure magazine in 2006 as one of the nation's top ten trails.

West Shore Bike Trail

2013

Granted: \$42,547

Partners: North Lake Tahoe Resort Association,
Placer County Parks, California Tahoe
Conservancy, and Tahoe City Public Utility District

THE WEST SHORE BIKE TRAIL PROJECT was the critical "missing link" in the popular west shore network of bike and pedestrian trails connecting Squaw Valley, Tahoe City and Tahoma. The trail previously ended in the Homewood area, where bikers and runners were forced on the narrow shoulders of Highway 89. The Tahoe City Public Utility District and California Tahoe Conservancy sought out funding to build this one-mile segment in coordination with Caltrans' plans to install new stormwater improvements along the highway. This

segment was completed in the fall of 2016. Visitors and residents are now able to enjoy a continuous 20-mile network on the west shore, linking parks, stores, restaurants and neighborhoods along Lake Tahoe and the Truckee River.

ENVIRONMENTAL STEWARDSHIP

Environmental Education Fund

2014
Granted: \$3,500
Partners: Sierra Watershed Education Partnership, South Tahoe Environmental Education Coalition, US Forest Service

THE TAHOE FUND believes strongly in the need for environmental stewardship of the Lake Tahoe Region to help ensure the long-term preservation of the Lake among our current and next generations. The magnificent environment of Tahoe creates a wonderful opportunity to create lifelong environmental stewards in the Basin and beyond. Through

the Environmental Education Fund, the Tahoe Fund provided grants to projects and programs that educate and inspire both children and adults to take care of Tahoe’s environment.

Tahoe In Depth

2012–2016
Total Funds Granted: \$17,500
Lead Agency: Tahoe Regional Planning Agency

TAHOE IN DEPTH is a news publication that aims to inspire environmental understanding and stewardship at Lake Tahoe. The purpose of Tahoe In Depth is to give homeowners, landowners, visitors and policymakers clear, straightforward and interesting information about the Lake Tahoe environment—from successful restoration to ongoing challenges. The goal is to help people better understand the work being done to restore Tahoe’s clarity and the role they can play in helping reach that outcome. The publication explores the natural and cultural history of the Tahoe Basin while providing balanced, reliable information on a wide

spectrum of scientific and planning efforts under way to protect Lake Tahoe’s unique scenic and ecological qualities.

Take Care Campaign

Total Funds Raised: \$77,257
Partners: Tahoe Fund, League to Save Lake Tahoe, Tahoe Regional Planning Agency, Tahoe Resource Conservation District, UC Davis-Tahoe Environmental Research Center

THE TAHOE FUND worked together with a collaboration of organizations to develop the region’s first unified stewardship campaign. The campaign is an attempt to reduce the human impacts on our environment through a series of fun and simple messages. Campaign materials were first made available to community organizations to use in their outreach efforts in 2015, and are now being used by more than 60 public and private organizations.

UC Davis State of the Lake Report

2015–2016
Total Funds Granted: \$10,000
Partner: UC Davis

THIS ANNUAL REPORT is essential reading for the latest information on the health of Lake Tahoe, but when budget cuts jeopardized its production, the Tahoe Fund stepped in to close the funding gap. The annual State of the Lake Report published by UC Davis, Tahoe is intended to inform non-scientists about how natural variability and human activity affect the Lake’s clarity, physics, chemistry, and biology.

LICENSE PLATE PROGRAM

THE TAHOE FUND continued to promote the sale and renewal of Tahoe license plates with the popular Plates for Powder program that awards new plate buyers with lift tickets to area resorts. Over 96% of the fees from plate purchases and

renewals go to Tahoe’s public environmental agencies, the California Tahoe Conservancy and the Nevada Division of State Lands, to fund hiking and biking trails, and watershed restoration projects around the Basin.

Thank you to our 2015–16 season participating partners:

TAHOE FUND

\$1 FOR TAHOE

THE TAHOE FUND is an environmental non-profit dedicated to restoring and enhancing Lake Tahoe. Since 2010, the Tahoe Fund has raised private funds for 15 environmental improvement projects that help restore the Lake's famed clarity, expand outdoor recreation, and inspire a greater sense of stewardship of the Tahoe environment.

We invite you to join our efforts!

You can leave a donation on your credit card slip, with cash, or write a Tahoe-sized check.

The only thing that runs deeper than Lake Tahoe is our desire to preserve it. We hope you will join us!

2015 FOUNDERS CIRCLE DINNER

ON AUGUST 23, 2015 the Tahoe Fund held its 5th annual Founders Circle on the beach at Sand Harbor State Park. The Dinner focused on celebrating the work of the first five years of the

organization and the tremendous support and generosity of our donors. Guests included Governor Brown, Governor Sandoval, Senator Feinstein, and Senator Heller.

More than 600
people attended

2015 LAKE TAHOE SUMMIT

THE TAHOE FUND was the Organizing Sponsor of the 19th Annual Lake Tahoe Summit held on August 24, 2015 at Round Hill Pines Resort in Zephyr Cove. The Summit was hosted by Senator Dean Heller and the theme was “Connecting Lake Tahoe’s Environment and Economy through

Innovation and Transportation.” The series of speeches also included a keynote by innovative and philanthropic Nevada and California business owner Christopher Bently and remarks from leaders from both California and Nevada.

DAWN PATROL

A GROUP OF LUCKY Tahoe Fund friends were welcomed by Squaw Valley for Dawn Patrol with special guest Jonny Moseley. The corduroyed slopes were the perfect way to wake up as the sun rose

over the lake on the beautiful winter morning. In between gazing at the sights, Jonny Moseley taught a lesson or two on how to shred up the moguls.

STEWARDSHIP CIRCLE PROGRAM

TAHOE FUND INTRODUCED the Stewardship Circle campaign to help inspire, motivate, and empower stewardship of our important national treasure. Donors joined the Stewardship Circle with a multi-year commitment of at least \$2,500 a year for three years.

Stewardship Circle members are a distinguished group of leadership donors made up of individuals, foundations and corporations helping us to restore and enhance the Tahoe environment. Thank you to our Stewardship Circle donors!

FINANCIALS

THE TAHOE FUND continued to grow a sustainable base for the organization by expanding the Stewardship Circle campaign. The Tahoe Fund continued to maintain investment accounts at Parasol Tahoe Community Foundation for

short-term project funds, operating funds and the long-term maintenance fund for the Incline to Sand Harbor Bike Path. Endowments are also maintained at the Parasol Tahoe Community Foundation and the Tahoe Truckee Community Foundation.
